

# Washbasin

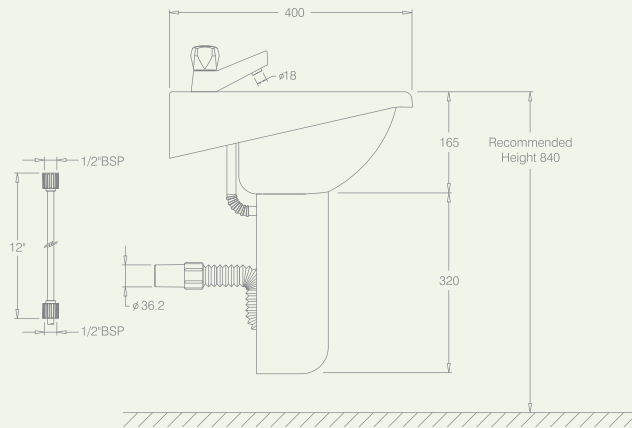

Outstanding product design is not characterised by a surprising visual concept alone, but also by impressive functionality. Plaza washbasin have been designed to withstand frequent & hard use. Not only it looks first class, it perform equally well. Most parts are made of robust engineering polymer material, the most durable material for this type of application, meeting international standard AS 1730. Uncomplicated fixing system and combination of flat & curved surface shape make it convenient to use and particularly easy to clean.

Plaza washbasin offers you a whole range of colours that goes perfectly with other bathroom accessories. Ideal for everyone who seeks to create a coordinated & highly attractive bathroom interior.

# Washbasin
